### Aims and Scope

CATHAICA publishes original research on molluscs and related invertebrates, particularly in taxonomy, systematics, phylogeny, biodiversity and related fields. Revision papers, descriptions of new taxa, redescriptions of little-known taxa, illustrated keys, new national or provincial records, and biogeography are welcome, manuscripts on anatomical reports, fauna investigation and field trip results are also encouraged.

### Copyright, Archiving Policy and Licensing Statement

CATHAICA is an open-access publication issued for the purpose of providing a public and permanent scientific record.
